[A HAMPTON TRADITION]

55' | 56' | 58' | 60' | 63' | 66' | 68' | 74'

The Hampton 558 may be the smallest in our line, but it has all the hallmarks of its larger siblings. Once aboard, you'll recognize distinctive Hampton touches like the exotic burl inlay cabinetry, leather upholstery, three LCD flat screen TVs and a Bose surround sound system. All this and more come as standard. It's a Hampton tradition. Alas our competitors still call them options. For full details visit www.hamptonyachts.com

Dear Lakeland Boater

The outlook for the '06 boating season couldn't be brighter. Stable growing economy, great attendance at boat shows, new vessels selling well across the board with interest in all size ranges. Once you've decided '06 is your boating year give Starboard Yachts a call. We'll help you with the selection of your boat, financing, insurance, documentation/registration and get you the most value for your dollar. To top that anyone that gets their new boat from Starboard Yachts will receive our exclusive "perfect summer weather guarantee", an agreement only we have with the weather maker to assure Starboard Yachts customers perfect boating weather.....just kidding, even Starboard cannot do that!

Have a great summer boating in Lakeland Country!

Sincerely,

Eric Robinson & Eric Nienhuis

POWER YACHTS

1997 50' Sea Ray Sundancer

Here it is, your opportunity to own a 50' Dancer with low freshwater hours and all the right options. Well equipped, and clean as a whistle, this 50' would make even the most discerning boat owner proud. Detroit Diesel 6-92's (DDEC 314 hours), great electronics package, very nice canvas, cherry interior, hard wood floor in galley and a bilge that is bright white and as dry and clean as is possible.

THIS FRESHWATER 50 STANDS TALL - AND IS EQUIPPED WITH AN AMERICAN BOW THRUSTER. . . THIS IS THE ONE YOU HAVE BEEN LOOKING FOR!

\$349,000 – Call Josh Van Howe – CA.

Mitch Iwan's

Prop Scans®

“This is your best time for tuning”

Bent props are dramatic, but they are the summertime exception in our business. Our value to you goes way beyond damage repair.

Truth is, hardly any prop is perfect out of the box, and twins are never created equal. In other words, we can improve the performance numbers of your boat to more than repay your investment in our Prop Scan treatment ... especially since the initial inspection is free if you send the props to us. We have a drawer-full of testimonials to prove that point. We also have a growing work schedule as the new season approaches.

If you are interested in what we can do to improve your boating experience, call us now. Our pre-season work schedule is beginning to fill, but if you act soon, we can still have you launched on time.

PROPELLER ANALYSIS AND REPAIR

Eliminate Vibration

Improve Speed

Use Less Fuel

Are your propellers causing your boat to vibrate?
Are they robbing you of fuel or speed?
Find out.....for free.

Kahlenberg repairs and tunes propellers to
ISO 484/2 Standards using a Hale MRI
digital scanning system.

For a free propeller analysis, or details on propeller
repair or any of the following products and services,
call 1-800-959-1307.

- Replacement propellers
- Shafts and Shaft Repair
- Struts and Strut Repair
- Shaft Seals and Bearings
- Marine Machining
- Air Horns and Accessories

1989 40' Trojan 12 Meter

Trojan hit a home run with the 12 meter! Built on the "Delta-Conic" hull with prop pockets, and a huge beam, this boat feels like quality. With many features that are notable for a boat of this age and size, this boat represents value in the "less than \$150,000 boats with diesels department". Good electronics, newer canvas, and new carpet inside. Engine(s): Detroit Diesel (Johnson & Tower) Engine(s) HP: 485 Engine Model: 6-71's Hours: 730 Cruising Speed: 26 Knots Max Speed: 30 Knots Layout is great, this one stateroom boat quickly becomes two with a hidden pocket door and clever bunk transformation.

Sea Ray Presents Top Honors

Sea Ray has given the Ohio retail locations of MarineMax the top Customer Satisfaction Index ranking for their exceptional performance in 2005. "Being ranked as No. 1 in Sea Ray's Service CSI rating shows that we are exceeding our customers' expectations, and that is something we are very proud of," says district manager Steve Zudnak.

New LEMTA Executive VP

Kenneth J. Alvey has been named executive vice president of the Lake Erie Marine Trades Association (LEMTA). Alvey is the former chief of the Ohio Division of Watercraft and brings a 30-year background in boating programs management, safety education, law enforcement and facilities development projects to his new position. "He's a perfect fit," said LEMTA board chairman Dave Gerbe. "Alvey has headed up one of the nation's most successful boating programs. He and our current president, Norm Schultz, have worked together on a variety of boating events, projects and legislative initiatives in what has been called a model public-private partnership spanning many years. He is very popular with Ohio's major boat-owner organizations and brings a wealth of experience working with state and federal lawmakers and regulatory agencies to expand boating opportunities." Alvey will take over as president on May 1.

Receives New Certification

McMachen Marine in Harrison Township, Michigan is now certified under NMMA's Five-Star Solution program. It's the first company to achieve this certification in the state. To become certified, a dealer must be considered proficient in all aspects, especially customer service and satisfaction, and must adhere to a "Consumer Bill of Rights." This document will be posted to let customers know what to expect. McMachen Marine has been in the boating business for more than 50 years.

LEMTA'S Shrinkwrap Recycling

LEMTA has entered into a partnership with the Ohio Clean Marinas Program and Mondo Polymers Corp. to undertake a pilot shrinkwrap recycling program for the spring. LEMTA president Norm Schultz says this program will

This custom-built Bay Harbor “castle” is looking for its royal family.

A barely lived-in home on the shores of Bay Harbor Lake could be yours—but only because the owner was so enamored with the design that he built another just like it.

“He’s going to move into the other one,” says Logan Ciesielski, a sales executive with Bay Harbor Properties.

And who can blame him? The 9,020-square-foot home, just a hop, skip and a jump from Lake Michigan, is jam-packed with amenities, and not just the standard ones.

Boathouse? Check. Elevator? Check. Mother-in-law apartment? Check.

On one of the largest lots in the Harborside community of Bay Harbor, Michigan, the three-story home has an attached boathouse and is right on the lake—perfect for the boating enthusiast.

“The boathouse can hold up to a 52-foot boat,” Ciesielski says. “It is all finished in cypress and includes underwater lights, access lights and two 30-amp hookups.”

With Lake Michigan just through the channel, day shopping trips to Traverse City, or weekend trips to Charlevoix and Mackinac Island are a breeze.

“We call it the nautical center of the Great Lakes,” Ciesielski says.

But there’s more to enjoy besides the boating. The home is also great for entertaining. The first level of the house, which welcomes guests with a rich mahogany door, includes a kitchen and bar area for casual gatherings, plus an office, laundry room and guest bedroom with a full bath.

“When you get to the second level, it is almost all windows on one side of it,” Ciesielski says. “You get the feeling, literally, of being on a boat.”

This is the main level, and there are two ways to get there: stairs or an elevator. A spacious gourmet kitchen here includes two ovens, a 42-inch SubZero refrigerator, a six-burner gas range, a preparation sink overlooking the lake and a butler’s pantry.

The master suite boasts a fireplace, custom-built closets, a Jacuzzi tub and a steam shower, in addition to a stacked washer and dryer unit.

A workout room is found on the second level, too, along with two more bedrooms, each with two closets and a full bath.

The mother-in-law apartment, complete with a living area, small kitchenette, full bedroom and bath, connects to the home on this floor. It also has its own entrance above the four-car heated garage.

The third-floor loft is whatever you want to make if it: his-and-hers office space, an extra bedroom or a billiard room.

Just down the street is the yacht club, the “social hub of the city,” which includes a workout room, a bar area, three different dining areas, an outdoor pool, a 20-person Jacuzzi, a sand beach, squash courts, tennis courts, a bocce ball area, basketball courts and meeting rooms.

“This home is really perfect for a person who is ready to step into day-boating activity,” Ciesielski says.

WHERE: Built over what used to be a cement plant on Little Traverse Bay, Bay Harbor stretches for five miles along Lake Michigan. “The village of Bay Harbor has spectacular shops, art galleries and monogram shops,” Ciesielski says. ↓

help consumers save money and help the environment. Mondo Polymers and the Clean Marinas staff will regularly collect the shrinkwrap at marinas in Ottawa, Erie and Lorain Counties at no cost. (Additional collections will be individually coordinated in other counties where there is sufficient shrinkwrap generated.) Simply put the used shrinkwrap in a storage place (inside or outside), and the Clean Marina packer truck will take it from there. Pickups will be scheduled every few days during peak time. This program will recycle shrinkwrap instead of putting it in landfills. Visit www.lemta.com for more information.

Buy At The Boardwalk

Bos Homes' gated beach community, The Boardwalk, is located just north of South Haven, Michigan. The development was engineered so that the sites are terraced, giving nearly everyone a view of the water. Midway to the lakeshore is a swimming pool and hot tub surrounded by bathhouses, and a nearby fire pit encircled by sitting stones. The community has a quarter-mile of private beach and a boardwalk for strolling along the shore. The architect, Wayne Visbeen, will work with potential buyers to customize their home. Lots start at \$1 million—and each comes with a GEM electric car. Call 269-637-1100 to arrange a personal tour.

Door County (WI) Bluff Estate

Exclusive residence/corporate retreat on one acre.

Kenosha Gets New Lakefront Development

Plans for a new nine-story development in Kenosha, Wisconsin are in the works. The mixed-use development, called The Brindisi, will occupy a city block just 700 feet from Lake Michigan's shoreline. The ground floor will be used as retail space, with 87 condominiums will take up the fourth through eighth floors. The two- and three-bedroom condos will start at \$450,000, while the 3,000-square-foot penthouses will be individually priced. The Brindisi was designed by the Kubala Washatko Architects, based in Cedarburg.
